LIVEVAULT® 8.2.0 RELEASE NOTES

Version	Status	Release Date
8.2.0	Final	March 18, 2019

NEW FOR 8.2.0

This section lists the enhancements to LiveVault 8.2.0.

APPLICATION UPDATES

- Added support for upcoming VM DR features that allow Hyper-V VMs, backed up under a continuous restore policy, to be mounted, powered on, and run on a VM-Enabled TurboRestore Appliance.
- TRA and Agent are now certified for Windows Server 2016.
- Agent now supports SMB 3.0, which allows backups of other servers and desktops without loading software on those servers/desktops.
- Added support for Deduplication on ReFS.

LIVEVAULT API UPDATES

For more information on available endpoints and their usage, refer to the [LiveVault API home page \(https://api.livevault.com/\)](https://api.livevault.com/).

WEB MANAGEMENT PORTAL

- The navigation tree has been updated with new visuals and improved performance.
- The Restore page has been updated with new visuals.
- Upload and download limits for custom bandwidth settings, can now be viewed on the Summary page.
- There is a new report viewer for Collector Agent pages. Reports are now visible on the page vs. popup window.
- Overall, WebUI performance has been improved as part of an ongoing effort to improve user experience.

REPORTING

- Audit Log retention extended out to 2 years

DEFECTS FIXED IN 8.2.0

The following issues have been resolved in LiveVault 8.2.0.

WEB MANAGEMENT PORTAL

- Fixed a rare issue where creating a customer in the WebUI would fail.
- Fixed an issue where DPM policies could not be restored through WebUI.

- Fixed an issue where special characters wouldn't display properly in WebHelp.
- Fixed an issue where an error would display when clicking "Edit" on the Properties page for appliances and agents.

AGENT SOFTWARE

- "Optimized for Deduplication" backups will now only be created if all selected files in a policy are on an optimized volume. Otherwise, a non-optimized policy will be created.
- DFS data will now be included in standard policies, instead of system state policies.
- Fixed an issue where restores were taking longer than expected when certain options were selected.

MISCELLANEOUS

This section contains miscellaneous information that LiveVault® 8.2.0 users should know.

OPERATING SYSTEMS

- The latest LiveVault supported release for Windows Server2003, Windows Server 2008, and Linux 32 bit systems is 7.84.
- LiveVault versions 7.90 and above are not supported on Windows Server2003, Windows Server 2008, and Linux 32 bit systems.

NOTE: Microsoft ended extended support for Windows Server 2003 on July 14, 2015.
